Ref. Ares(2023)1635684 - 07/03/2023

ROADMAP2

euROpean observAtory on Disaster risk and crisis MAnagement best Practices: way ahead

Project Details | Start date: **1st January 2023** | End date: **31st December 2023** | Duration: **24 Months**
Reference: **101101690 – ROADMAP2 – UCPM-2022-KN-PJG**

D1.1 Project Workplan

Project co-funded
by the European Commission

PROTEZIONE CIVILE
Presidenza del Consiglio dei Ministri
Dipartimento della Protezione Civile

WORKING PLAN

WORKING GROUP

Ben	Name	E-mail	Tel Office	Mobile	Skype contact	Short profile
CI3R	Andrea Prota	presidente@ci3r.it; aprota@unina.it	+39-0817683534	+39-3337671338	live:d50f4b5fef0b06de	Prof. Prota, president of CI3R, will take care of project management aspects and will contribute to the networking and dissemination activities; also, he will chair the meetings of the Steering Executive Committee. Full Professor, expert in seismic risk assessment and risk mitigation strategies and guidelines. Member of Major Risks Italian National Commission – Sector Seismic Risk of the Italian Civil Protection Department and of the Commission of Italian Ministry for Infrastructures and Transportation that developed the Guidelines for Classification of Seismic Risk of Constructions.
	Edoardo Cosenza	cosenza@unina.it	+39-0817683489	+39-3391533331	live:ffab092196a11876	Prof. Cosenza, founder and president of ReLUIS, will contribute to local stakeholders' involvement and will take care of project management aspects. Full Professor, expert in seismic engineering, structural engineering and conservative rehabilitation using innovative materials. President of the Association of Engineers of the province of Naples since 2017. Member of the Commission of the Ministry of Infrastructures, Superior Counsel of Public Works for the "Guidelines for the monitoring, evaluation of structural safety and risk classification for existing bridges" and of the Commission of the Ministry for Cultural-Heritage for the redaction of the "Guidelines for the assessment of seismic risk of cultural heritage". Past member and vice-president of Major Risks Italian National Commission - Sector Seismic Risk of the Italian Civil Protection Department.
	Maria Polese	mapolese@unina.it	+39-0817683485	+39-3392642635	maria.polese2	Prof. Polese will act as WP3 leader. Associate Professor, expert in seismic vulnerability, risk/loss estimation methodologies, multi-risk assessment and crisis management policies framework. Actively involved with ReLUIS in the activities of support to ICPD for preparation of the National Risk Assessment 2018 for Italy, she was also involved in BORIS project (leader of WP4 "Shared methodology for multi-risk assessment) and has led AMRA research unit in FP7 project CRISMA; both BORIS and CRISMA projects have a special focus on multi-risk.
	Fabio Germagnoli	fabio.germagnoli@eucentre.it	+39-03825169817	+39-3401289606		Dr Germagnoli will take care of project management aspects. Executive Manager of the Eucentre and, among other tasks, he is coordinator of several national and international projects carried out by the Foundation. Among the most relevant tasks, he participated in the working group 6. Disaster and insurance funding established by the Civil Protection Department within the National Platform for Disaster Risk Reduction
	Barbara Borzi	barbara.borzi@eucentre.it	+39-03825169826	+39-3477818711	barbara.borzi	Dr Borzi will contribute with her expertise to technical WP. Senior Researcher at Eucentre and currently Head of the Risk Scenarios Department. She is involved in several national and international research projects. Her main research interest is evaluation of earthquake risk at urban or regional scale of structures and infrastructures
	Chiara Casarotti	chiara.casarotti@eucentre.it	+39-03825169846	+39-3478938941	chiaraeuc	Dr Casarotti will contribute with her expertise in civil protection planning and post-event technical support. She will contribute to task 1.3 and to technical WPs. Senior Researcher at Eucentre and currently Head of the Emergency Support Department. She has been deeply involved in the emergency management and rapid response to earthquake disasters, both within European projects and in real disasters, with technical coordination roles.
	Alberto Gotti	alberto.gotti@eucentre.it	+39-03825169861			Dr Gotti will contribute with his over 25 years of experience in environment and health impact assessment, data assimilation and exposure modelling. Working in the Risk Department of Eucentre, he has an extensive experience on environment and health impact assessment and exposure modelling, techniques to assess and reduce uncertainty in human health risk assessment. Dr Gotti is Vice-President of the Mediterranean Scientific Association of Environmental Protection (MESAEP).
	Saverio Bisoni	saverio.bisoni@eucentre.it	+39-03815269833	+39-3398560281	saveriob75	In Eucentre since 2004, Saverio Bisoni is currently the Head of the Secretariat Office. Among his main tasks: coordination of the secretariat office activities, support to the President for the meeting of the bodies of the Foundation, support in the preparation of proposals at national and international level, in the organisation of training activities and events of the Foundation.
	Giulia Fagà	giulia.faga@eucentre.it	+39-03825169894	+39-3343357594	igiulia	Eng Fagà will contribute with her expertise in dissemination and knowledge transfer activities. She will contribute as a Dissemination Manager (WP5) and to technical WPs. Head of the Education department of Eucentre, she is involved in several research projects dealing with earthquake risk reduction. Her current work is mainly focused on dissemination and knowledge transfer activities in the field of earthquake risk mitigation.
	Luca Ferraris	Luca.ferraris@cimafoundation.org	+39 019230271			Prof. Ferraris will take care of project management aspects related to its institutional mandate. President and CEO of CIMA Research Foundation. Operational and research experience in Hydrometeorology, Hydrology and Climate Change with particular emphasis in flood and natural hazards forecasting and risk evaluation. Member of Major Risks Italian National Committee. Operational and research experience also in Civil Protection, risk reduction, liability, legal aspects & governance in risk management.

	Nicola Rebora	nicola.rebora@cimafoundation.org	+39-019230171	+39-3483631801	nicolarebora	Dr Rebora will act as WP4 leader integrating the stakeholders' expertise and contributions with the IT aspects related to the Solutions Explorer. Senior Researcher at CIMA Research Foundation, head of the Bureau of the Presidency and Programmes Support sector, expert in hydrometeorology and climate change adaptation. Expert in flood risk and development of risk management procedures and platforms. Since 2015 he is member of the Community of Users on Secure, Safe and Resilient Societies, promoted by DG Home
	Marina Morando	Marina.morando@cimafoundation.org	+39 019230271			Dr Morando will act as link with on-going activities related to the Good Practice Observatory developed with the ICPD at Italian level. Program Director at CIMA Research Foundation, her activities will focus on linking the ROADMAP2 projects with the up-coming and ongoing initiatives related to the communities' resilience to risks. Marina Morando has research and operative experience in civil protection planning, at different territorial level. Integrated land management for risk mitigation. Local institutional support. Risk communication.
	Marco Massabò	Marco.massabo@cimafoundation.org	+39 019230271			Dr Massabò will act as link with on-going projects related to Capacity Building and funded by DG-ECHO. Program Director for Capacity Development in Disaster Risk Reduction and Civil Protection of CIMA Research Foundation, with a focus on European IPA and neighbourhood Countries. His approach to capacity development is based on bridging the science-policy interface for improving disaster risk management.
ICPD	Carlo Centoducati	carlo.centoducati@protezionecivile.it	0039-06-68202029	0039-334-6211155	manu-carlo	Dr Centoducati will contribute with his expertise to WP 1 and WP2. Expert in international relations, ESI funds, project design and management, with extensive experience in both operational-level and field-level disaster risk and crisis management. Since 2010 he has been involved in several development cooperation, capacity-building and advisory projects. He has a strong background in legislative drafting, EU negotiation and promotion of community resilience to disasters.
	Giovanni De Siervo	giovanni.desiervo@protezionecivile.it	0039-06-68202171	0039-320-4326124		Dr De Siervo will contribute with his expertise to WP1 and WP2. Expert on humanitarian aid and disaster risk management. From 2005 to 2012 he worked in as Policy Adviser on International relations, humanitarian affairs and risk management at the Italian Civil Protection Department. From June 2012 to May 2016, he was seconded to the European Commission, DG-ECHO, Emergency Response Unit. Since June 2016 he is back at the Italian Civil Protection Department where he held the position of Head of the International Relations and Activities Unit from 2017 to 2021. Currently is Senior International relations Advisor at the same Department.
	Daniela Di Bucci	daniela.dibucci@protezionecivile.it	0039-06-68204761	0039-335-7390607	daniela.db1	Dr Di Bucci will act as coordinator of the project. Ph.D., geologist with expertise in geohazards, working in the Scientific Advisory Unit of the Italian Civil Protection Department, on: scientific relationships and agreements with research institutes and academia; Major Risks Commission activities; definition of strategies with high scientific content for Disaster Risk Reduction at national and international level; draft of regulations with relevant technical-scientific content. Author of more than 110 peer reviewed scientific publications (H-index: 26 on Scopus, 30 on Google Scholar)
	Francesca Giuliani	francesca.giuliani@protezionecivile.it	0039-06-68202715	0039-335-5838492	Francesca Giuliani	Financial Legal expert, working at Financial Office of the Italian Civil Protection Department, on: administrative and accounting management of European projects, international exercises and missions within the European Civil Protection Mechanism. She will contribute to WP1.
UiS	Claudia Morsut	claudia.morsut@uis.no	4751831331	4792031085	claudia.morsut	Dr Morsut will act as WP2 leader. (PhD in International Relations from the University La Sapienza in Rome). Her research focuses on the role of the EU as crisis manager, the European Union civil protection Mechanism, crisis governance, EU security, resilience. She worked as research scientist at International Research Institute of Stavanger (2009-2015), while teaching at the University of Stavanger (Erasmus Mundus Master in Migration and Intercultural Relations). In the period November 2018 - October 2019 she was Centre Leader for the Centre in Risk Management and Societal Safety (SEROS) at the University of Stavanger. She has published on the European Union civil protection policy, the EU cooperation in security at global level, the EU governance of the 2015 migration crisis. She teaches at bachelor level in crises and societal security and at MA level on the EU civil protection governance.
	Bjørn Ivar Kruke	bjorn.i.kruke@uis.no	4751831548	4790056364	bikruke1	Prof Kruke will contribute with his expertise to technical WP. PhD in Risk Management and Societal Safety from UiS. His research, lecturing and supervision of students focuses on emergency preparedness and management, civil protection and migration. He is a trained Civil Protection member of the EU Civil Protection Mechanism and has both humanitarian and military experience from working in conflict areas. He publishes in peer-review journals like Journal of Contingencies and Crisis Management, Disasters and Emergency Preparedness and Disaster Management. He lectures at MA level in several Norwegian universities and was involved in the establishment of the Arctic Safety Centre in Spitsbergen, Svalbard.
ADAI	Domingos Xavier Viegas	xavier.viegas@dem.uc.pt	351.239.790.732	351.917.257.430	DXViegas	Prof. Viegas will act to plan and coordinate ROADMAP2 webinars. Expert in Extreme Fire Behaviour, he will create and facilitate the network between the entities, and in general dissemination, training and activities.
	Miguel Almeida	miguelalmeida@adai.pt	351.239.708.580			Dr Almeida will support most of ROADMAP2 tasks involving conceptual and risk-related approaches. Environmental engineer with MSc in Environmental Management and Policies by the University of Aveiro. PhD in Mechanical Engineering – Natural and Technological Hazards by the University of Coimbra, in the context of spot fires. He is senior researcher in the Association for the Development of Industrial Aerodynamic (ADAI), specifically in its Centre for Forest Fire Research (CEIF), to which is collaborating since 2003, with full dedication since 2007. He is integrated member of the Associated Laboratory for Energy, Transport and Aeronautics (LAETA) since 2012. Over the past 10 years, he performed Professor activities in the Polytechnic Institute of Tomar (Portugal) and in the Department of Mechanical Engineering of the University of Coimbra (Portugal). He is regularly involved in the training of firefighters with participation in more than 15 courses on fire behaviour and fire safety.
	Tiago Rodrigues	tiago.rodrigues@adai.pt			TiagoRodrigues	Dr Rodrigues will be supporting ADAI activities in ROADMAP2, including planning and management of all deliverables coordinated by ADAI. Tiago Rodrigues is a Senior PhD holder working at the Forest Fire Research Centre of ADAI (University of Coimbra, Portugal). He got his first degree in Biotechnology (2010), a Master in Cellular and Molecular Biology (2013) and recently his PhD in Health Sciences – branch of Biomedical sciences (2019), granted by the Faculty of Medicine - University of Coimbra. His areas of expertise include operational and safety actions and rules in the wildfire-related firefighting as well as health impacts from wildfires. He was also forest watchman and firefighter during 8 and 10 years, respectively. Furthermore, he is author and co-author of several scientific papers, oral communications, posters and abstracts in National and International peer-reviewed scientific journals and conferences. He is also highly experienced in National and European research projects.
	Maria Teresa Pais Viegas	maria.viegas@dem.uc.pt	351.239.790.732	351.914.764.453		Dr Viegas will manage all financial and administrative aspects of ROADMAP2 as well as stakeholder engagement monitoring. Project manager, she will take care of legal process and protocols between the entities and uncharged of the formal procedures related with the dissemination and training activities.

	Luis Mário Ribeiro	luis.mario@adai.pt	351.239.708.580			Dr Ribeiro will manage all technical details involved in the preparation and organisation of ROADMAP 2 webinars. Luís Mário Ribeiro is a Senior Researcher at the Forest Fire Research Centre of ADAI (University of Coimbra, Portugal). He has a degree in Forestry from the University of Trás-os-Montes and Alto Douro (1998) in Vila Real (Portugal), where he finished a post-graduation in Forest Resources Engineering in 2002. In 2016 he finished his Master in Social Dynamics, Natural and Technological Risks, at the University of Coimbra (Portugal), with a recognition from the Faculty of Economics. His areas of expertise include fires at the wildland urban interface, fuel management, decision support systems and safety standards and rules in the firefighting. He has a vast experience in National and International research projects and published several papers as author or co-author and presented numerous communications, either scientific, technical or operational, in Portugal and abroad.
	Catarina Matos	catarina.matos@adai.pt	351 239 790 732		catmatos2	Dr. Matos will be supporting ADAI activities in ROADMAP2, including planning and management of all deliverables coordinated by ADAI. Catarina Matos is a Ph.D. holder working as a researcher at the Forest Fire Research Centre of ADAI (University of Coimbra, Portugal). She got her first degree in Geology (Scientific Branch) by the University of Coimbra (1998), her Master´s degree in Cartography and Structural Geology in the University of Évora (2003), and recently her Ph.D. in Sustainable Energy Systems from the MIT Portugal Program (2022) at the University of Coimbra, Portugal. Her areas of expertise include energy, renewables & sustainability, energy storage and underground reservoirs, natural risk events, geology and geographical information systems (GIS). She has also extensive experience in working in National and European Research Projects. Additionally, she is author and co-author of several scientific papers, oral communications, posters and abstracts in National and International peer-reviewed scientific journals and conferences.
	Hafsae Lamsaf	hafsae.lamsaf@adai.pt	351 239 790 732		HafsaeLamsaf	Dr. Lamsaf is a Ph.D. holder from the Faculty of Science and Techniques, Fez (Morocco): "Elaboration of new inorganic and organic polyphosphometalic materials: structural studies, spectroscopic characterizations and magnetic properties" (collaboration with Physics center of University of Coimbra & Technical University of Munich (Germany). Currently, a PhD researcher in the Associação para o Desenvolvimento da Aerodinâmica Industrial - ADAI, Coimbra, Portugal. She is working on the development of a forest fire risk model at the urban-forest interface.
UTARTU	Dr Kati Orru	Kati.Orru@ut.ee	+372 51 58 545	+372 51 58 545	Kati_orru	Kati Orru will act as a WP5 leader. Kati Orru is Associate Professor of Sociology of Sustainability at University of Tartu. Her research focuses on crisis management and social well-being and vulnerability. Kati Orru's research on risk and crisis management is published in high-level international scientific journals Disasters, the International Journal of Disaster Risk Reduction and the Journal of Risk Research. Kati Orru was the Estonian coordinator of the EU H2020 BuildERS project and led a work package focusing on crisis management practices.
	Dr Sten Hansson	Sten.Hansson@ut.ee	+3725048879	+3725048879		Sten Hansson will contribute his expertise in WP2, WP4 and WP5. He is an Associate Professor of Communication Research, at University of Tartu. Sten's research on risk, crisis, and government communication and information management has appeared in highly recognized scientific journals such as the International Journal of Disaster Risk Reduction, the Journal of Risk Research, Policy Sciences, The British Journal of Politics and International Relations, Journal of Language and Politics and Discourse & Society.
	Dr Kristi Nero	Kristi.Nero@ut.ee	+37253312430	+37253312430		Dr Kristi Nero will coordinate the collaboration with Estonian stakeholders. She is a crisis sociology analyst at University of Tartu. Kristi Nero's research focuses on the experiences of the marginalised and homeless in society COVID-19 in a pandemic. She has a Master's degree from the Institute of Internal Security of the Academy of Internal Affairs, where her main field of research was crisis management, with the focus on health crises.
	Ingeliis Siimsen	Ingeliis.siimsen@ut.ee	+3725287571	+3725287571		Ingeliis will contribute as an assistant in WP5 activities. She will help with contacting Estonian stakeholders and contribute to the development of flash reports.
