1. INTRODUCTION

The final workshop of ROADMAP2 project, held in Rome on 10th December 2024, provided an opportunity to present the results of the project and to examine the activities of the various Work Packages through presentations by the respective leaders. These presentations were accompanied by round tables with members of the CEO and a discussion on the future prospects of the project.

ROADMAP2

3. CONCLUSIONS

Apart from being an opportunity to share achievements, the final workshop was fully exploited to discuss how to manage the ROADMAP2 legacy in terms of sustainability and product maintenance, as well as to identify possible future developments.

Valuable suggestions were provided by the Project Officer, who listed a number of calls for proposals to be opened by the European Commission in early 2025.

Comments and suggestions on topics and activities to be developed in the future were provided by the CEO members, concerning both the CEO composition and the GPs (see Deliverable D2.4 for further details).
