

CECIS LITE

Wednesday 21 October 2022

DG ECHO / Emergency Response Coordination Centre (ERCC) – Johanne LA

CECIS Team

Why CECIS 2.0?

- Legal basis: article 8, UCPM legislation Decision No 1313/2013/EU
- Observed **major limitations/ operational shortcomings**
- What happened? **CECIS Team reinforcement**
 - CECIS Project Manager: Laurent DIHO:
 - 4 x IT developers
 - CECIS Working Group

sTESTA: a pre-condition for CECIS

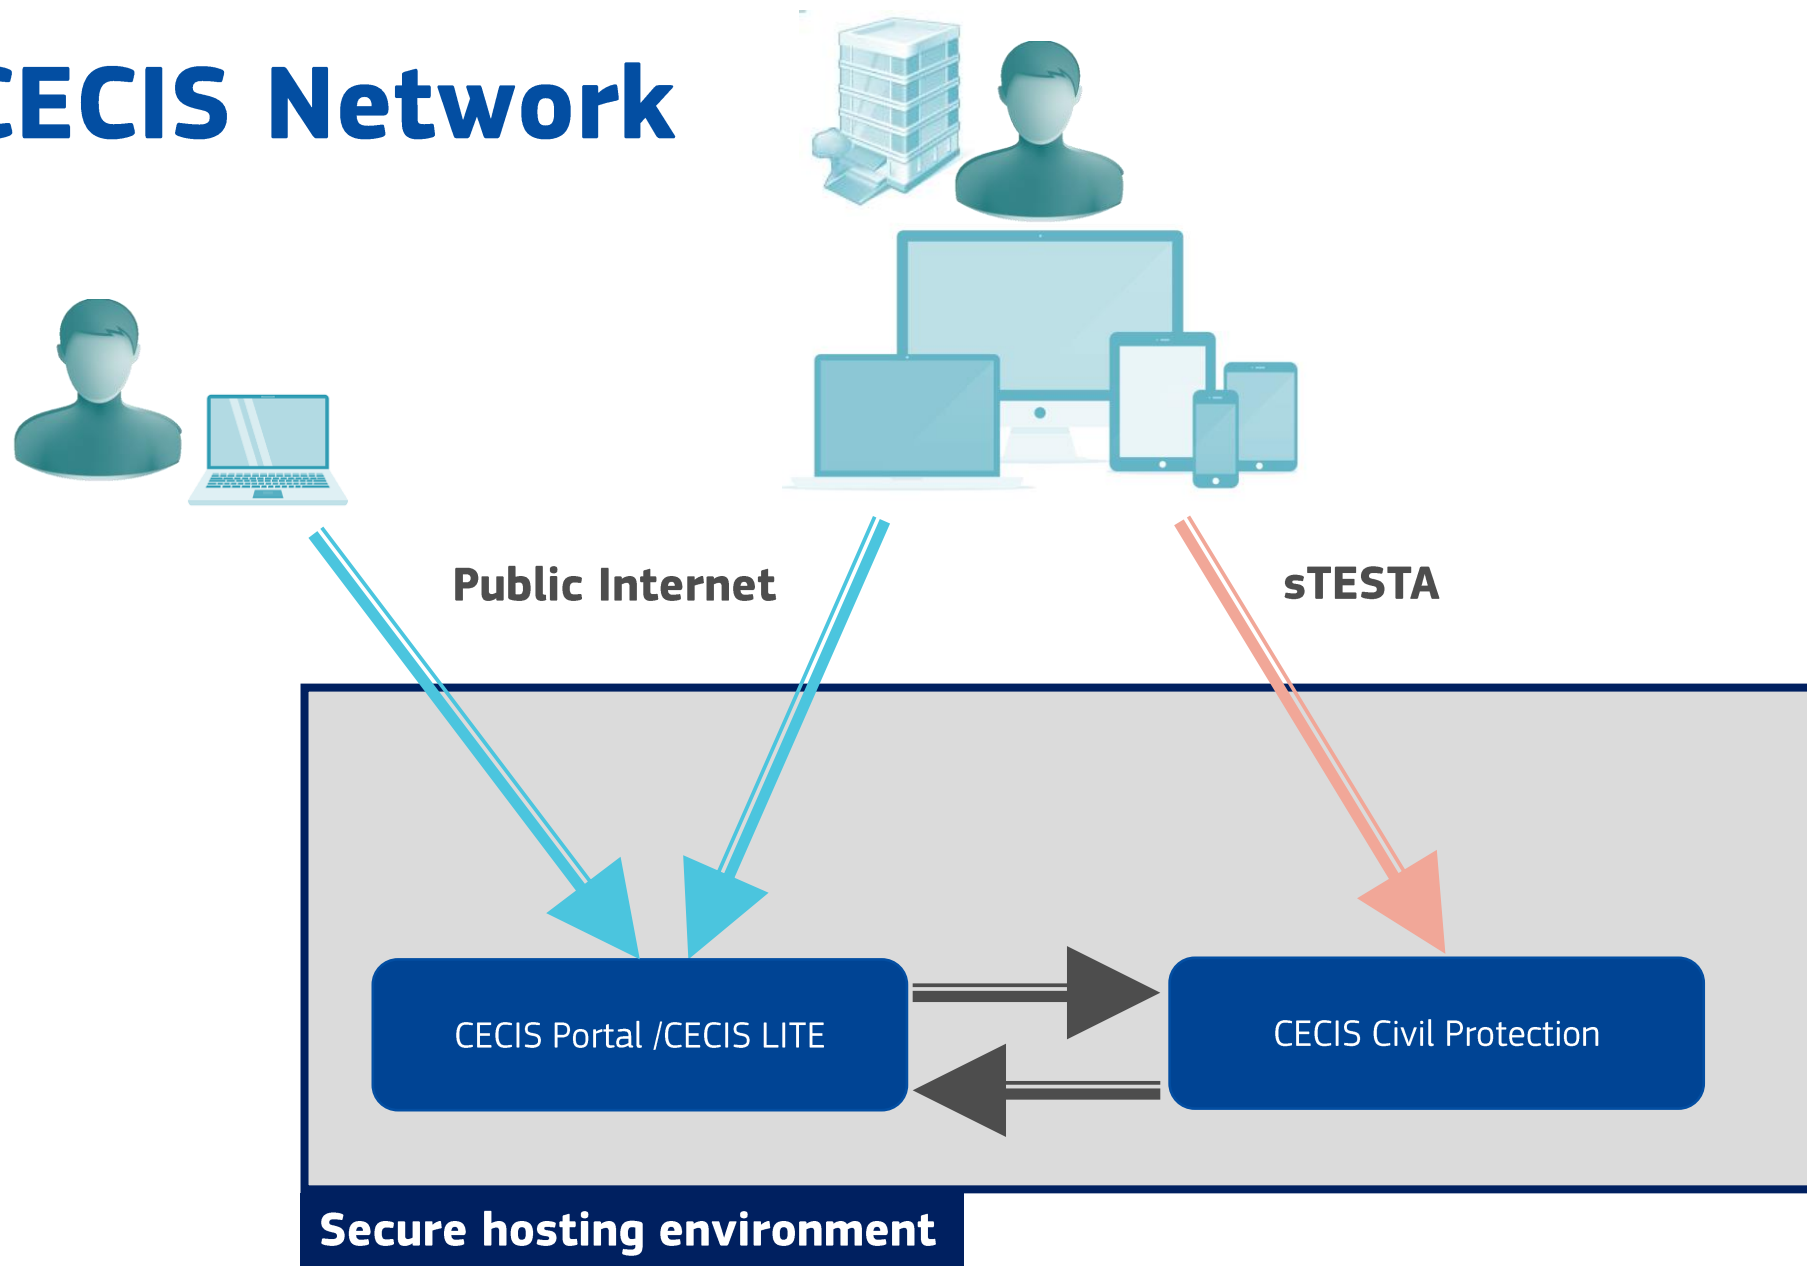

What is sTESTA?

- A pre-condition for CECIS is the existence of **sTESTA connection** in the country.
- sTESTA is a secured IP-based network owned by the EU. It is an interconnection platform that ensures secure information exchange between European public administrations.

Who currently has access to CECIS?

- **All 27 EU MS + 2 PS (IS & NO) have sTESTA and access to CECIS.**
- **5 PS (ME, MK, TR, RS, BiH) do not have sTESTA.**

CECIS Network

CECIS Architecture

CECIS LITE for who?

- Participating States who do not have sTESTA (*ME, MK, RS, TR, BiH*)
- Other organisations in MS/PS to whom CP authorities would like to give CECIS CP access to (*e.g. MoH, MoFA*). CP authorities will be able to define the level of privileges those organisations should have (*read/write or read-only*) and have the option to give access only to specific emergencies (*e.g. only Ukraine*)
- Experts deployed on UCPM missions

CECIS 2.0 ROADMAP

2022
