## Introduction

As prescribed in the proposal of the PROMPT project, technical meetings were planned to be held among the project partners to share the project updates, solve possible difficulties, and organize the project activities. In this regard, during the days of 18<sup>th</sup> and 19<sup>th</sup> September, a technical meeting was held in Santander. The event consisted of meetings in which the core concept of the project and the activities done so far by partners were presented to the consortium itself and relevant stakeholders.

## DAY-1: Monday, 18<sup>th</sup> September 2023

This first day was structured into three activities:

- Technical meeting between partners at IHCantabria facilities
- Visit of Santander Harbor by boat
- Optional Project Dinner

### **Optional Project Dinner**

A project dinner was organized to end the activities of DAY-1 of the Santander technical meeting.

## DAY-2: Tuesday, 19<sup>th</sup> September 2023

The second day of the meeting was focused on meeting relevant stakeholders and it was structured into two activities:

- Presentation of PROMPT Project at Port of Santander
- Visit to Port of Santander facilities

### Presentation of PROMPT Project at Port of Santander

The overall objective of the event was to enhance the visibility of the PROMPT project and to interact with invited stakeholders. The meeting was held at Port of Santander facilities. Along with the members of the PROMPT consortium, the stakeholders attending the meeting were Salvamento Marítimo (SASEMAR- Spanish Search and Rescue Agency), Autoridad Portuaria de Santander (Santander Port Authority), Capitanía Marítima (Maritime Authority) and Civil Protection/Government of Cantabria. It lasted for 2 hours, from 9:00 CET to 11:00 CET.

Agenda:

- **Mr Andrés García (IHCantabria)** opens the meeting of the PROMPT consortium and the stakeholders
- **Mr Santiago Díaz-Fraile (Santander Port Authority)** welcomes the PROMPT consortium and the stakeholders to the Port of Santander meeting
- **Mr Giovanni Besio (UNIGE)** presents the PROMPT project
- **Mr Cristiano Nattero (WASDI)** presents PROMPT's activities for the detection of oil spills and floating containers based on Earth-Observation
- **Ms Amina Al Kazar (OEPT)** presents the Port of Tripoli and explains the Real-Scale Experiment: "Real-scale test for container tracking"
