Civil Protection

The project has received funding from the European Union's Call for proposals in the field of Civil Protection under the Union Civil Protection Knowledge Network under grant agreement 101017763.

The content of this document represents the views of the project consortium only and is their sole responsibility. The European Commission does not accept any responsibility for use that may be made of the information it contains.

Below is a table listing the datasets that have been collected in the framework of project ARTION and the links to the web-location through which each dataset is accessible (at the Zenodo repository and at the Disaster Management AI portal, respectively).

A description of each dataset can be found at the corresponding web address where the dataset is hosted, as well as in Deliverable 2.2.
