Union

Join the Union Civil Protection Knowledge Network

What is the Knowledge Network?

A community that connects civil protection and disaster risk management experts and organisations from the 27 EU Member States and Participating States. Members share knowledge, and work together to prevent, prepare for, and respond to disasters and risks.

If you work
in civil protection,
disaster risk
management
or preparedness,
the Knowledge
Network is for you!

How can I benefit?

- Stay informed about the latest news and events on civil protection and disaster risk management.
- Find or share good practices, innovation, lessons learnt, research, publications and many other resources, all in one place.
- Contribute your own news stories and events, including to our quarterly newsletter.
- Set up or join an interactive group with other members of the civil protection community.
- Set up your own project space, where you can upload content directly.

1700+
members

88 collaborating
organisations from
32 countries

12 000+ training
opportunities

2 500+ expert
exchanges

How do I become a member?

Click on 'Join the Platform' to register and become part of a growing online community of first responders, disaster risk managers, scientists, decision-makers and other stakeholders.
