Results Framework for the 2026 UCPM-Prevention and Preparedness calls[1]

This Results Framework follows a similar approach to Monitoring and Evaluation as other EU-funded programs. Targets for the key performance indicators (KPIs) shall be provided by applicants at the application phase. Depending on the characteristics of the project, only values for KPIs relevant to the proposal shall be provided. Project-specific indicators can be added at the end of the list, if needed. For proposals awarded, their realisation will be checked before the end of the project through a dedicated deliverable.

Indicators	Baseline	Target (to be reported at application phase)	Achieved target (to be reported as deliverable at the end of the project)	Explanation of the indicator	Means of verification / comments by beneficiary
Which Disaster Resilience Goals is your project contributing to?	0			Please indicate the DRGs the project contributes to (add link to DRGs).	
Number of stakeholders (members of public or private entities) participating in knowledge-sharing activities through the project. *Disaggregated by role, country, competent authority and sex (if applicable).*	0			Please indicate number of professionals / volunteers who have participated in trainings, exercises, workshops, information sessions, or other kind of knowledge-sharing activities through the project.	
In view of the response above, number of stakeholders reporting that those knowledge-sharing activities have been useful to increase knowledge and skills on DRM	0			Please capture the reported usefulness of the knowledge-sharing activities via, for example, a survey.	
Number of people (general population) participating in knowledge-sharing	0			Please indicate number of citizens who have
